Chairs, Stools, Benches & Armchairs

Some pieces simply belong in a space. Others give it character.

From the clean silhouette of an armless chair to the ease of a swivel, the gentle movement of a rocker, the deep comfort of a recliner or the versatility of a beautifully crafted bench, every piece is shaped around the way we sit, gather and relax.

Dining chairs, stools, benches and armchairs move effortlessly through restaurants, hotel rooms and lobbies, bars, resorts, offices and executive spaces, and healthcare interiors, bringing comfort, character and a quiet sense of refinement wherever they are placed.

Stitches & Finishing

The smallest details can leave the strongest impression.

Stitching does more than hold upholstery together. It defines lines, introduces texture and gives a piece its individual character. From the simplicity of Plain Stitch to Double Top Stitch, Piping, Channel, Diamond and Blanket Stitch, each technique creates a different finish.

Our bespoke service extends these possibilities further, allowing stitching details to be selected or developed to complement the design.
